

*"This Will Matter in 100 Years"*

---

## Global Outreach Lane Report - January 2023

*Goal: Continuing to spread the gospel through faith-based organizations and partnerships that meet the needs of those communities, and empowering local leadership for lasting change.*

Staff Lane Leader: Sam Schalberg

Projects Contact: [sam@redrockschurch.com](mailto:sam@redrockschurch.com)

**Big Win:** Red Rocks Church Legacy Team officially funded our fourth well in Haiti in partnership with Healing Waters! The well is located in a rural farming community in Mabriyol, Haiti. This well provides community access to safe, affordable, drinking water through an onsite well and solar-powered purification kiosk in cooperation with the local church.

**Feature Story:** Please take a few moments to watch Wesley's testimony. His story is directly correlated with our strategic partnerships with Compassion International and Healing Waters.

---

## Additional Resources:

[Learn about what we are doing internally as a church through our partnerships.](#)

## Year 1 Projects:

---

- ***Church Plant Building Project - Rwanda/Columbia***

Objective: Red Rocks Church, in partnership with Compassion International, would like to contribute towards building another Church/Project in Columbia or Rwanda. We are vested in both countries.

Why: Compassion International has new pastors ready to plant a church and lack the funds to build a center for the children of that city. That's where we can make it possible and open the doors for hundreds of kids to have an opportunity to break the cycle of poverty.

Impact: Once a site is planted, sponsored kids can attend and our church members have the option to sponsor kids in that community, which allows them to attend school, bible lessons, and receive a meal once a day.

Update: More formal conversations are continuing with Compassion International about a new church plant in Colombia for this fall with a goal of completion by Fall 2023. With the launch of this new church plant, Red Rocks Church will have two Compassion International Church plants in Colombia! As these church plants continue to grow and mature, our hope is to work with our other international partners such as Healing Waters and HOPE International to provide clean water solutions and create financial savings groups within the church community. Through this work we hope to create healthy and sustainable change to the community that points people back to Christ and the local church!

Estimated Cost: \$77,000

- ***Filtered Water Well Project, Haiti***

**FUNDED**

Objective: Place another clean water well with our partner, Healing Waters, where there is no access to clean water that can change and meet the needs of the local community.

---

Why: Without access to clean filtered water, the population faces serious health risks of water-borne disease. Additionally, each water solution provides the opportunity to spread God's love in an at-risk community.

Impact: Red Rocks Church has financially supported three water well projects with Healing Waters in Martineau, Corail, and Colette, Haiti! Our most recent well in Colette provides clean water to 1500-1700 Compassion children on a daily basis and the surrounding community of 5,000 to 6,000 people (35,000 total in Colette region). A new water well project will provide clean water for thousands of people, employ a water well technician, and change the health quality of thousands of people!

Update: The fourth water well project in Mabryiol, Haiti has been funded and completed!

Actual Cost: \$33,290

- ***Training Center for new Pastors - Northern India***

**FUNDED**

Objective: Train and send 20 new Pastors who will be equipped biblically and practically to plant a church the following year through our partner Empart, who we refer to as 'Impact' to the public, due to the intense persecution of Christians in Northern India.

Why: The cost of following Jesus leaves many cut off from their families. We step in to provide a place for them to live and to be equipped within a community of other new pastors to start house churches.

Impact: The new pastors will minister and bring hope to thousands of people where the church is growing at an unprecedented pace. Empart saw over 600,000 people give their lives to Jesus and had 1774 students in training. They are currently working with 1998 previously unreached people groups in India. We are excited to continue supporting this ministry as the gospel continues to grow in unreached parts of the world! In Q4, RRC gave \$30k towards Empart's Amoni Training Center. 30 pastors graduated from the program in December, and 29 pastors are currently enrolled to start in 2023!

Actual Cost: \$30,000

- ***Christian School Project - Rwanda***

**FUNDED**

---

Objective: Continue our annual support to Hope Haven, a faith-based school in Rwanda devoted to equipping students both educationally and spiritually.

Why: Hope Haven provides immense opportunity for students to get a faith-based education and opportunities for teachers to find faith-based employment.

Impact: In 2012 there were no schools within a 15-mile radius of Murindi; children were simply uneducated. Today, besides Hope Haven Rwanda, the local Ndera Sector government schools only provide half-days of learning, with one teacher responsible for 120 children.

Through our support in Hope Haven, student and teachers' lives are changed and these opportunities open the doors to a new future that wouldn't be possible without churches like Red Rocks supporting the mission. This year, Hope Haven will have close to 900 students on campus every day in three preschool levels as well as primary grades. They are currently under construction for their secondary school for students to continue their education.

Annual Support Cost: [\\$30,000](#)

- ***World Disaster Relief initiatives***

Objective: To continue our annual support given through the World Relief organization, that responds to international crises by providing direct relief for those in need, while working through local churches.

**FUNDED**

Why: When a crisis hits, many countries we serve lack assistance due to government corruption, lack of funds or in the midst of war. Since Red Rocks Church has developed personal relationships with some of the leading Christian emergency response organizations, we can quickly provide funding to immediate needs.

Impact: In 2022, \$60,000 was donated to Hope International, Missions to the World and World Relief. These funds were used to help up to 70,000 Afghanistan Refugees obtain SIVs, housing, and food assistance. The funds will also help provide emergency shelter, food, hygiene kits, and medical supplies to those impacted by the Haiti earthquake. Additionally, \$6,000 was given to the Ukrainian church fund to help Ukrainians flee the eastern border. This money supplied the people of Ukraine

---

with gas, food, shelter, accommodations, as most had to leave their homes with no time to pack personal belongings.

Annual Cost: \$50,000

Actual Cost: \$60,000

## Year 1 Vision Gap:

---

*Total Global Outreach projects combined leave a \$77,000 vision gap.*

## Prayer:

---

- So much has happened across the globe in the past year. We've seen natural disasters, war, and poverty cause so much difficulty for so many people. As a church we were able to respond to many of those places and people to provide aid. This year we are praying that we're able to continue that, while also contributing toward organizations that are spreading the gospel in really impactful ways. We are planning on training and equipping pastors in India, and contributing toward a church plant in South America. Join us as we pray God continues to use our church to provide aid to those in need and to share the good news of Jesus around the world.
